A short vowel word is any word that doesn't allow the vowel within it to generate that vowel's long vowel sound. For example, the word "bug" is a short vowel word because there's no long "U" sound. A word doesn't necessarily have to have three letters to be a short vowel word, but it makes for the easiest example and three-lettered words make up the bulk of any list of short vowel words.

### **Long and Short A Vowel Sounds Worksheets**

If the vowel (in this case "a") says its name, it is considered a long vowel. Such as in the word "take". If the vowel does not do that and make another sound, it's considered a short vowel. Many people don't understand the importance of understanding long and short vowels. It becomes a very valuable skill once you start to encountering higher level vocabulary words.

A short vowel sound is a vowel sound that does not follow this rule. When reading a word that uses a short vowel sound, will say the sound that the letter can make that is not its actual name. So in the case of A, the word main might have a long A sound because we pronounce the A as / /, whereas the word man has a short vowel sound.
